## PROFILE

A PHP pioneer Developer and Manager. I oversee end-to-end project lifecycles, coordinating cross-functional teams, and delivering innovative software solutions while ensuring on-time delivery and high-quality results.

## EDUCATION

**2007 - 2012**
**INSTITUTO TECNOLOGICO DE COLIMA**

- BS in Computer Science with a major in web technologies.

## WORK EXPERIENCE

**June 2022 - PRESENT**
Ventup
**IT Project Manager**

- Lead the planning, execution, and delivery of the product. Coordinating teams, ensuring quality, and meeting deadlines to ensure efficient and successful development of software-as-a-service solutions.

**March 2021 May 2022**
Tango
**Product Manager**

- Responsible for the product planning and execution throughout the Product Lifecycle, including: gathering and prioritizing product and customer requirements, defining the product vision, and working closely with engineering, and other departments to support and customer satisfaction goals are met.
- Including, ensuring that the product supports the company's overall strategy and goals

**July 2018 - February 2021**
Tango
**Project Manager**

- As one of the most experienced Scrum Masters in Tango, I was promoted to organize the teams. My familiarity with the group of developers, the projects, and their overall work dynamic has helped me to create a more efficient and positive work environment.
- I still wear the Scrum Master and Product Owner hats from time to time, if the project and team require my assistance.

## SET OF SKILLS

- Scrum / Kanban / Lean
- HTML/CSS / JS / PHP / Python
- DBeaver / GCP / Postman
- Pivotal Tracker / Asana/ Trello / Jira / Wrike / ClickUp / Office 365
- Adobe Photoshop

## LANGUAGES

- Spanish - Native
- English - Proficient
- French - Beginner

**July 2016 - July 2018**
Tango

### Scrum Master & Product Owner

- I started as a Scrum Master, implementing Lean and Agile methodologies, helping with team management, removing impediments, facilitating work between developers and product owners, as well as facilitating discussion, decision making and conflict resolution.
- As a Product Owner I lead a variety of projects. My responsibilities included defining new features, developing product roadmaps, and working with clients to better understand their goals, budgets, and timelines. I also prioritized and assessed projects for the software team.

**I worked on the following projects as a Scrum Master:**
- **Orbridge:** online platform to book group trips. During my participation, the team dynamic improved due to implemented processes. We also worked on improving the architecture for scalable products.
- **RealKey:** Real estate startup based in San Francisco. My work here was focused on organizing the team.
- **P2C**: I worked on coordinating the team while we improved app security for this fintech company.
- **Adobe**: While working on a journey map for Adobe, I developed the strategies and team organization.

**December 2013 - December 2014**
Fractalsoft

### Technical Manager

- Technical Manager at Fractalsoft. Responsible for definition of products, requirement management and proposal presentation to customers. Also worked on front end development.

**July 2014 - December 2014**
Fractalsoft

### Technical Manager

- Front End Developer at EADistributions. In charge of developing compelling interfaces and templates for e-shops.
- Worked on an online store for customized glasses.
- Worked on an online store selling dog tags.

**February 2014 - June 2014**
Cidecol

### Mobile Developer

- Developed an Android application using Phonegap. The app was an electronic survey for Colima's government; their aim was to analyse the levels of poverty in the state.

**June 2013 - December 2013**
Proyectiva Soluciones

### Front End Developer

- Developed an Android application using Phonegap. The app was an electronic survey for Colima's government; their aim was to analyse the levels of poverty in the state.

**November 2011 - May 2013**
